Good afternoon, Mr Taylor

Thank you for your email and for confirming you would like all works completed in June.

We will organise for a surveyor to attend and carry out an inspection of the render crack, following their findings and report, we will then liaise with you further and organise for the works to be actioned.

Kind Regards

Donna Hack

Good morning,

We would prefer all works, internal and render, to be carried out in June.

I understand Crest has already responded to the NHOS, but the original render crack has returned. Before the render is removed, I would like an actual surveyor to investigate why this has returned.

> Good morning, Mr Taylor

I hope that you are well.

We have not heard from you regarding the render works and possible dates. As per my email below, I can offer further dates, however, I do believe if you have a preference to when you would like the works completed, we can work with you.

The render works will take approximately two weeks from removing to applying the new, and scaffolding to be erected the week before, following the works, removal of scaffolding, cleaning, and landscaping will be arranged.

We will await to hear from you further with possible dates.

Kind Regards

Good afternoon, Mr Taylor

Following the below email, I can keep these appointments open until Friday 25th close of business, following this date, we will then require looking at new dates due to ordering materials.

Please advise further, if the below dates will be suited so we can confirm into the diary and a schedule of works be put together.

If you have a preference for dates for these works, please do advise so we can liaise with the contractor.

Kind Regards

Good afternoon, Mr Taylor.

I hope all is well.

Following on from the below email regarding Stanmore visiting to view the render, they have now advised that they can undertake the works for Crest.

For the rendering works they are advising to allow two full weeks, from removing all existing render to applying new, as confirmed, this is all render.

Scaffolding will be required to be erected the week prior to works starting.

The dates that we would like to start these works are the following,

Scaffolding to be erected from Tuesday 6th May.

Rendering works to start Monday 12th May.

Following the works and scaffolding being removed, cleaning and landscaping will follow to be completed.

Stanmore have pencilled these works in for the above dates, however, can be moved to a later date if required.

Please can you confirm by close of business Tuesday 22nd April if these dates are suited for you, as the contractor has a lead time on ordering the materials for the works.

Kind Regards

Good morning, Mr Taylor

I hope that you are well.

I have been advised that Stanmore viewed your property yesterday, Wednesday 26th March and discussed the render with you directly.

We are now just waiting for them to provide a schedule of works from removing all render to re-applying, other contractors required, and a time frame from start to finish.

Once we have further information to provide you, we will be in touch further, I do believe we are looking at May onwards as we should hopefully have the better weather.

Kind Regards

Good afternoon, Mr Taylor

I just wanted to provide an update regarding the render. We have sourced a contractor that have agreed to assist with the works required to your home.

We have provided them with the plot layout externally, the contractor have advised that they may attend early next week to view externally to get a better overview of the works and the environment they will be required to work in, this will also help with regards to planning a schedule of works, including a time frame. No access is required to your property at this time as they can view from the front and side elevations.

Once they have provided an update to the team, we will be in touch with you further to plan how we move this forward, especially as we are now into spring.

I do hope to be able to come back to you by the end of next week, if not then early the following week to provide an update to you.

Thank you for your time.

Kind Regards
