Thank you for your email.

These are dates acceptable - please could you book Solent Aftercare.

Please could you confirm what will be done about the crack in the render?

Many thanks

Thank you for your response.

Item 41: I already know that this hasn't been done as I provided the drone photos showing that what I was told by Natalie Haigh, presumably on behalf of the build team, was not truthful. The plumbing company visited last week and confirmed that after only seeing the garage guttering that it had not been. I would like to know why I was assured by a senior member of Crest that this had been done when in fact nothing had been done about it, going back to October.

Regarding the turf, you were not privy to the email sent to my wife by Adrian Sims on 17 March 2023 at 12:48, which itemised multiple items, including the turf at £1500, for a total of approximately £18k. We therefore did pay for this, whether it is being deemed as part of the deal or not. No pricing would have been necessary if this had not been the case. That is also not the only area of turf which died - the area outside the kitchen which Mark excused as being where his workers had to stand when doing fixes, will not grow back. Please could you advise what is going to be done about it? Donna Hack took photos of this area, and Mark is also aware of it.

I have asked multiple times now for the evidence that the DPC at the garage is according to NHBC standards. Despite promises, most recently by Donna Hack, that your technical department will provide documentation to support this, I am still waiting. I would be grateful if you could ask the relevant department for a date by which I will receive this.

I did mention this to Donna Hack, but the brickwork where the NHBC requested to view how damp would be mitigated has not been added to the list, or otherwise discussed. I have before and after photos, and it looks a mess compared to how it was. Please could you ask the technical department when this is going to be made to look like it is a brand new wall, like it did originally?

Many thanks,

Mr Taylor

>
> 4: We are replacing the dishwasher door. It on order and expect a delivery next week.

13: The wall right hand side of staircase will be attended too.

22: The gap in the bathroom frame will be filled.

41: We are waiting confirmation from the contractor to let us know if the cleaning of the gutters were carried out, as requested.

44: I have checked your reservation and incentives. We included the turf as an incentive and didn't charge you £1500. The turf needs time to bed down at least into the warmer weather, when it will knit roots into the soil.

45: This is with our technical and build team who will respond.

We will monitor the items that need addressing, daily.

I don't have access to a copy of the NHBC sign off. I will pass on your request to our Customer Service department.

Kind regards

Lynn Carrington

Good afternoon,

Issue 4: This was present before we had even used the dishwasher - please confirm that this door will be replaced, not repaired

Issue 13: This is not settlement, the drylining is bulging. Regarding the patching, the entire wall needs to be repainted, and this was reported to Mark on the 11th October 2023.

Issue 22: The same needs to be rectified in the main bathroom

Issue 41, this was supposed to have been done already, as it was confirmed by Natalie Haigh on 5th October 2023 that the gutters had all been cleared. This was not true.

Issue 44: It is not acceptable to pay £1500 for grass for it to be ruined because of the DPC work, then have more turf just laid on top of the old dead turf. What is going to be done about this?

Issue 45: I was told that this is acceptable. It is not, because it doesn't need to happen. The driveway paving is higher there than it should be, hence the water ingress. It is not present on the other side because the paving is where it should be.

Not present on the issues list:

- Garage DPC. I am still waiting to be told where in the NHBC technical standards 100mm is acceptable. I was told by Eileen Guihen that the NHBC has signed this section off. I would like a copy of that sign off please.

- Main bedroom carpet to en-suite is not fitted correctly

- Master bedroom ceiling not even

- Dent in the wall in the en]suite toilet

- Mastic throughout is poorly done

- Glosswork in multiple places poorly done

- Main bedroom ceiling

- The paint on the floors from the original list of issues has not been done, and there are other areas where this is present. Please could you add this to the list.

- Granite worktop - bad scratch and there is what appears to be adhesive on some areas.

- The fridge door creaks badly when opened or closed.

- The blown tape on the kitchen ceiling, reported to Mark several weeks ago, has not been done. There is now another on the ceiling close to the kitchen patio door.

- The floors in several rooms upstairs creak badly when walked on.

- Left of kitchen sink - long dent in the plaster

- Join in stone worktop has worsened

- Kitchen patio door not open and closing easily or without creaking

Please could you contact the after care company to advise of the items not on the list they have. Please advise what on the list they will be addressing. Once we know what will be done I can confirm the date I can be available. Regardless of whether one or two days are needed, it would need to be a Tuesday and/or Wednesday.

More worryingly, there is now a very large crack in the render (almost the entire height of the wall) on the utility room side of the house. I need to know what will be done about this, how, and when. A house a few doors down had scaffolding up for render so this isn't an isolated incident. Photos attached. I will address this in a separate email also, as this is urgent with the weather we have been having.

Many thanks,
Mr Taylor
