Good morning Mr Taylor.

In response to your email of 25th October 2024 to myself and your emails to Martyn Clark on 29th October 2024, enquiring about a path to connect Albany Road and Tangier Gardens developments, it is Crests position that Crest have delivered all our required obligations within our site boundary and there are no works required by Crest outside of this.

Crest will not be undertaking works to make any connection.

I trust this clarifies our position and answers your enquiry.

Regards

Mark Foyle

Managing Director

Good afternoon,

Thank you for your response, however I think there has been sufficient time to be able to answer whether this is Crest's official position or not and I would like an answer.

This was a selling point by Steve Smith from your Albany Road sales office, who was very clear about the residents' ability to access the bridal path from this development, and the only reason my wife and I were aware of the path in the first instance.

Many thanks,

Mr Taylor

Good morning Mr Clarke,

I would be very grateful for a response to my previous emails.

Mr Taylor

>> Good evening Mr Taylor,
>>
>> Further to your email below and the follow-up email to Martyn Clark, please accept my apologies for the delayed response.
>>
>> I have had the chance to discuss the items with the team and I answer the points raised, which I hope you find useful:
>>
>> **- When is the path going to be completed to allow crossing the farmer's road? I asked Indy early in the year but was never given a response**
>>
>> *The Design and Access statement for both Tangier Gardens and Albany Wood included a requirement for the strategic cycleway to carry on through each of our sites, but there was not an obligation for Crest to construct / extend the same beyond our site limits. i.e. we are not required to connect the cycleway over Tangiers Lane. Having reviewed our drawings, which were shown to you at point of reservation, we can confirm they did not show a connection over Tangier Lane.*
>>
>> **- What is the plan for the open area, as it is covered with Lambs Quarter**
>>
>> *The open space is a mixture of grass and wildflower seed. We are arranging a meeting with the Parish Council to facilitate handover of the area and anticipate this will take place in November/December 2024. Should the Parish Council identify any snagging items a programme of rectification works will be agreed and carried out.*
>>
>> **- When will Crest be off-site completely?**

We are looking to complete the site expediently and currently have finishing works to undertake, which includes roads and paths. We anticipate completion of the site around the end of 2024.

- There is a green bin and other rubbish left near the trees after Baram removed their vehicles which needs to be removed

We have attended site to review the suggestion of rubbish and a green bin, but we were unable to locate them. I have asked our site manager to carry out a further visit of the area next week to ensure any detritus is removed, this visit will be aided by an exact location of the green bin and rubbish you have referred to. If you could confirm this back to me directly, I would be most grateful.

- Gravel paths not built correctly as they are being overtaken by weeds from below and clearly don't have weed barrier underneath the gravel

The gravel paths are completed to specification and no weed barrier was specified as part of the design. The paths were handed over to the Managing Agents on the 1st September 2024 and I can confirm the paths will be included in the general site maintenance by the Managing Agents, which includes weeding. We have made the Managing Agents aware of the matter you have raised.

- Verges are not being maintained anymore so there are more weeds than deliberate planting

The verges have been handed over to the Managing Agents and they are responsible for ongoing landscape maintenance. We note the comments / concerns you have made, and we have passed these through to the Managing Agents to address.

- When is the metal railing blocking access to the farmer's road going to be replaced with trees or bushes?

The metal railing blocking access to the farmers field has been installed by the farmer on their land therefore this is not something Crest Nicholson are able to remove. We are pleased to confirm that we are going to arrange for some planting to be installed in this location to improve the outlook and expect this to be completed before the end of 2024.

I hope the above responses are of assistance. Should you need any further assistance please do not hesitate to contact me.

Kind regards

Mark Foyle

Subject: S106 Agreement – Access to Bridle Path

Good morning Mr. Clark/Mr. Foyle,

I am still awaiting a response to the questions I raised with Indy earlier this year, again in September, and most recently early October, regarding the access to the bridle path. I have waited a further week since the attached email but have still had no response.

This access point is part of the S106 Agreement and remains incomplete. The metal railing in place is an eyesore, and I was assured by the site team that the gap would be replaced with bushes or trees, but again nothing has been done.

Mr. Taylor

Good afternoon Mr Taylor,

Further to my email last week I write to seek your agreement to the render repair works. We have set out below the proposed works and programme. If you could confirm your acceptance to the dates proposed, we can get the work confirmed with our contractors.

The proposed works to remediate the render is as follows:

- Open up crack(s) to allow suitable depth and width for repair to be undertaken
- Fill the gap using weberpral, weber accelerator monochouche and EVA, to a protruding nib of 2-3mm
- Remove the nib and blend in with the existing render

- Wash down the existing render prior to painting
- Paint the existing render with Webersil P with 2 coats throughout, the first coat to be diluted in accordance with Webber reports recommendations, 24 hour drying process between coats

The programme would be as follows:

Date	**Task**	**Company**
23/10/2024	Erect scaffolding	AJ Burton
24/10/2024	Erect scaffolding	AJ Burton
25/10/2024	*Contingency day*	
Weekend		
28/10/2024	Render remedials	Gen Drywall
29/10/2024	Render remedials	Gen Drywall
30/10/2024	Render remedials Client Inspection	Gen Drywall Crest Nicholson
31/10/2024	Render remedials	Gen Drywall
01/11/2024	Render remedials	Gen Drywall
Weekend		
04/11/2024	Remove Scaffolding	AJ Burton
05/11/2024	Final Sweep and tidy of works area Client Inspection	Crest Nicholson Crest Nicholson

It should be noted that the above works are weather dependent, and we will monitor the weather as we progress towards the start date (as above or any alternative agreed). Should the weather look unfavourable we will make contact with you.

In relation to the internal works to your property, Donna has emailed you on the 1st October 2024 and 4th October 2024 to seek agreement on dates for the blown tape, gloss and paintwork to be addressed. I understand you have emailed back this morning and will be advising of availability for the dates proposed.

Finally, I am in receipt of your email where you have raised questions in relation to works pertaining the wider development. I have been away from the business for a short while but I will come back to you under separate over on these items. Thank you for your patience on my responding to you.

In the meantime,

Kind regards

Mark Foyle

Managing Director

Good evening Mr Taylor

I have spoken to the team today and we are sitting down tomorrow to go over the contractors proposal and proposed dates.

I will respond with proposed dates tomorrow but the works would carried out mid October, weather and access permitting.

Kind regards

Mark Foyle

Managing Director

Good morning Mr Foyle,

It has been 21 days since Weber visited our property. The scaffolding could have been raised, the work done, and scaffolding removed in this time.

Please could I have an update on why we are still waiting for a date when this is likely to be completed?

Many thanks,

Mr Taylor
